Business minded, multi-departmental collaborative developer

Experience

Emburse

1/2021 – Present

Senior Web Developer

- Managing entirety of marketing website including backend, frontend, CMS, and hosting
 - Supporting demand gen campaigns by creating highly visible landing pages **backed by \$1MM+ ad spends**
 - Creating scalable CMS components, interactive pages, and marketing templates based on original designs as well as ordered deliverables from various design agencies
- Proposed & executed initiative to replace outdated monolith tech stack with Vercel, Next.js, and Sanity.io to resolve scalability and UX challenges: **reducing annual fixed costs by >25%**
 - Designed new architecture and **led a team of 3 engineers** to implement replacement repo, eliminating mass amounts of tech debt and iterating based on department workflow needs
- Ongoing **migration of 7 acquired product sites** into umbrella corporate site
- Implementing and supporting marketing technologies including Google Tag Manager, Analytics, Search Console, Marketo, HubSpot, Mutiny, Qualified, and Salesforce connectors via API's and embeds

Panolam Surface Systems

5/2019 – 4/2020

Software Engineer

- Designed full scale manufacturing product database, replacing handwritten audits
 - Remediated data on **>2,000 products** from 1 large spreadsheet
 - Created normalized database: 18 tables/countless views to house new data
 - Multi-user, self-updating, GUI released to production, with iterative improvements
- Analyzed production chain and created stand-alone & integrated desktop apps to boost operator efficiency based on feedback, including tools for:
 - Barcoding job details into PDFs, crawling internal network for related product info, assembly instructions via document parsing, etc.
- Created supporting visual, written, and video guides

Shads Advertising

10/2015 – 10/2018

Web Store Manager

- Implemented new web store program
 - **Developed 8 web stores** for client employees to order branded products
 - Shopify-powered ecommerce portals with Authorize.net payments
 - HTML, CSS, JS & jQuery web designs
- Wrote purchase orders to vendors for custom promotional products
- Actively managed timelines, artwork, proofs to meet event deadlines

Education

University of Maine

2014

Bachelor's Degree in Business Management
